

Statement of **Volatility**

**AOC Monitor CU34E4CV**

The AOC monitor CU34E4CV includes both volatile and non-volatile components. Volatile components lose their data as soon as power is removed, while non-volatile components retain their data even after power is disconnected. The following non-volatile components are present on the CU34E4CV system board.

The chart contains a list of Non-Volatile Components on System Board

Component	Designator	Volatility	User Accessible for external data
NOR FLASH MX25L6433FM2I-08G 64Mb SOP-8	U4003	Non-volatile	No
NOR FLASH GD25Q20CTIG 2Mb SOP-8	U1101/ U1201	Non-volatile	No
USB RTS5450M-GR QFN-46	U5702	Non-volatile	No
EEPROM M24128-BRMN6TP 128Kb SOP-8	U4001	Non-volatile	No

All other components on the system board lose data if power is removed from the system.
