

15.6" Full HD portable IPS display with USB-C connectivity

The latest USB-C powered portable display from AOC, I1601FWUX boasts a vivid 15.6" IPS display with wide viewing angles (160/160°) and 5 ms GtG. Includes smart cover and auto-pivot mode.

Features

Portable, elegant solution

The I1601 looks gorgeous and is durable with its metal alloy case. While being just 8.5 mm thick and weighing ultra-light 800 g it is easy to travel with for work or study. It also easily fits in most notebook bags.

USB-C

One cable is all you need. The USB-C technology carries both the power and the display signal to the screen in one cable. It not only looks ultra-clean and sleek but also greatly improves portability of the monitor.

Travelling and commuting

If you work on the go, whether you're commuting or often working far from home, you need to boost your productivity in places and situations when a complete desktop setup is just impossible and unlikely to have. With the lightweight and easy-to-handle size of AOC portable monitors, you can always be efficient ... anytime, anywhere. Working has never been so easy: when visiting your customers, their ergonomics help you focus on the core of your meetings!

Business meetings

An AOC portable monitor is the perfect solution for business meetings. You can share with your customers and partners a document, or a presentation, while keeping an eye on all other apps you need for work on your laptop. This helps in delivering tasks with no distractions, for you and your audience.

Home use – Solve the “too little space issues”

Sometimes a traditional monitor is not what you're really looking for, the more so if you live in a small apartment and you can't have a complete desktop layout. But AOC has the perfect solution, in roughly 16", that can assure you more screen space and more comfort.

Business outside home and office

Your office is where you are and moves with you, every day and everywhere. Working with a laptop provides you with mobility but setting up an external monitor is one of the best hacks for improving your productivity. AOC portable solutions help you to connect your laptop through different types of connector systems, so efficiency and flexibility are with you wherever you go. According to the monitor you chose, in fact, you will benefit from the USB-C if you have an AOC I1601FWUX, or the USB 3.0 if you are using the AOC I1659FWUX.
