

PUSH THE LIMITS OF SPEED!

POWERED BY
27G50Z

The 27G50Z is built for competitive gamers who seek the fastest response. With its FHD resolution and Fast IPS panel, it delivers sharp visuals and vibrant colors. Thanks to its 260Hz (OC) refresh rate, 1ms GtG, and 0.3ms MPRT, you'll enjoy an ultra-smooth, blur-free gaming experience. AdaptiveSync and Low Input Lag ensure flawless precision, while HDR10 enriches your visuals with deeper contrast and enhanced detail. With its minimalist eSports stand and customizable G-Menu settings, the 27G50Z is your ultimate weapon to stay ahead of the competition.

- **GMENU**
- **Low Input Lag**
- **0.3ms MPRT Response Time**
- **1ms Response time GTG - Grey-to-Grey**
- **Fast IPS**

E-SPORTS MONITOR STAND

Our new stand. Co-designed with eSports professionals, allows you to maximize free space for all your peripherals. The base of the monitor is designed to reduce the footprint of your monitor on your desk, and even allows you to place your keyboard on top. The stand includes cable management to keep your desk clean. No matter what genre you compete in, we want you to feel like a pro.

GMENU

AOC G-Menu is a free tool that you can install on your PC to have complete customization paired with maximum convenience.

LOW INPUT LAG

Unleash your reflexes by switching to the AOC Low Input Lag mode. Forget graphical frills: this mode rewires the monitor in favour of raw response time, giving the ultimate edge in hair trigger stand offs.

1MS RESPONSE TIME GTG - GREY-TO-GREY

GtG stands for Grey-To-Grey and represents how long it takes for one pixel to change between one gray level to the next. In gaming, every millisecond counts and can be the differentiator between hitting or missing a shot. Fast response time also eliminates ghosting and motion blur.

0.3MS MPRT RESPONSE TIME

Feel the truly immersive gaming experience. Whether you're navigating through a fast-paced racing game or engaged in a high-stakes battle, every millisecond counts! The 0.3ms MPRT monitor could be your ticket to gaming excellence, with quick reaction times and smooth gameplay.

FAST IPS

Unlock your gaming potential with Fast IPS panels offering rapid pixel response times of up to 1ms GtG. Say farewell to motion blur as you enjoy sharper images, enhancing precision targeting and boosting performance in high-speed games. Experience the advantages of fast IPS technology, including vibrant colors and wide viewing angles, for an immersive gaming experience and unleash your full potential.
