

NO STUTTERING, NO
TEARING, JUST
GAMING.

POWERED BY
G2778VQ

Featuring FreeSync technology to eliminate tearing, stuttering and input lag, the 27-inch AOC G2778VQ also boasts a 1ms response time, a 75Hz refresh rate, and Flicker-Free technology, which reduces eye fatigue for a more comfortable viewing.

- **FreeSync**
- **1ms Response time GTG - Grey-to-Grey**
- **75Hz Refresh Rate**
- **Display Port**

Freesync

The AMD FreeSync Technology ensures that the GPU's and monitor's refresh rates are synchronised, which provides a smooth, tear free gaming experience. You will appreciate the low input lag if you're looking for the best quality visuals in fast paced games.

75Hz Refresh Rate

Get the upper edge! With a 75 Hz refresh rate, the display panel draws 75 frames each second. 75 Hz refresh rate is 25% faster than what is offered on most entry level displays at 60 Hz, while still being affordable and delivering those extra frames gamers need to beat their opponents.

1ms Response Time GTG - Grey-to-Grey

GtG stands for Grey-To-Grey and represents how long it takes for one pixel to change between one gray level to the next. In gaming, every millisecond counts and can be the differentiator between hitting or missing a shot. Fast response time also eliminates ghosting and motion blur.

DISPLAY PORT

DisplayPort offers ultra-fast digital audio and video transmission without quality loss or input lag. Quickly and easily connect a range of devices to your screen, including your computer, laptop, media player, game console and more. It's perfect for professionals as well as the most demanding home users.

GENERAL		DISPLAY INFORMATION		VIDEO FEATURES	
Model Name	G2778VQ	Screen size (inch)	27,0	Flicker-Free	No
Channel	Gaming	Flat / Curved	Flat
