

Gaming mouse with Pixart 3519 sensor and RGB lights effects

The GM200 is a solid choice for any casual gamer. It comes with a Pixart 3519 sensor with real 4,200 DPI, a tracking speed of 48 IPS and 10G setting you up for a solid performance no matter what type of game you dive into. The Microswitch that allows up to 10M clicks makes the GM200 long-lasting and with a range of 16.8M RGB backlight colours you can also upgrade your setting visually.
