AMD 
FreeSync
Premium Pro

Gaming should be as smooth as possible; this cannot be achieved without a seamless synchronisation of GPU and monitor refresh rates. AMD FreeSync™ finally makes this possible at an affordable price and without sacrificing performance. This technology delivers a gaming experience with zero tearing and stuttering, while maintaining frame rates and input speed at maximum level.

- **Height adjustable Stand**
- **FreeSync Premium**
- **144Hz Refresh Rate**

HEIGHT ADJUSTABLE STAND

Raise or lower the screen to suit each individual's height and seating preferences. The easy-to-adjust stand ensures hours of comfort.

Freesync Premium

Enjoy the best quality visuals even in fast paced games. The AMD FreeSync Premium Technology ensures that the GPU's and monitor's refresh rates are synchronised, which provides a fluid, tear free gaming experience at highest performance. The AMD FreeSync Premium features a refresh rate of minimum 120Hz, decreasing blur and sharpening the picture for a more life-like experience. The LFC feature eliminates the risk of stutter in case the frame rate drops below the refresh rate.

144Hz Refresh Rate

Equip yourself with twice the frame rate of other monitors and say goodbye to image stuttering and blurry motion. With a 144Hz refresh rate every frame is rendered sharply and in smooth succession, so you can line up your shots accurately and appreciate high speed races in all their glory.

GENERAL		GAMING FEATURES		CONNECTIVITY INFORMATION	
Model Name	G2770PF	Gaming style	Shooters	HDMI	HDMI 1.4 x 1
Channel	Gaming	Game mode	RTS, FPS, Racing, Gamer 1, Gamer 2, Off	DisplayPort	DisplayPort 1.2 x 1
Product line	AOC Gaming			USB type downstream	4
Launch date (ETA)	10/5/2015	Gaming convenience	G-menu	Audio Output	Headphone out (3.5mm)
EAN	4038986185400			USB generation	USB 2.0 + 3.0 (4 USB downstream ports)
DISPLAY INFORMATION		SUSTAINABILITY		PRODUCT DIMENSIONS	
Flat / Curved	Flat	TCO Certified	6	D-SUB (VGA)	1x
Display hardness	3H	WEEE	Yes	DVI	1x DVI-D
