

EVERY MILLISECOND MATTERS

POWERED BY

AG352QCX

Armed with a huge 35-inch curved MVA panel in 21:9 format, this monitor immerses gamers deeper into virtual worlds than ever before. It is equipped with Freesync Premium and a refresh rate of 200Hz for an ultra-smooth gaming experience

- 200Hz Refresh Rate
- 1800R Curved
- Freesync Premium
- Low Blue Light
- Wide FHD (WFHD) Resolution

200HZ REFRESH RATE

A 200Hz refresh rate is more than triple the industry standard of 60Hz. Unleash the full potential of your graphics card: with screen tearing and motion blur and stuttering all eradicated, your game will finally flow like it was meant to, and your skills can reach new heights.

1800R CURVED

Curved design wraps around you putting you at the center of the action and provides an immersive gaming experience.

AOC GAMING AG352QCX

FREESYNC PREMIUM

Enjoy the best quality visuals even in fast paced games. The AMD FreeSync Premium Technology ensures that the GPU's and monitor's refresh rates are synchronised, which provides a fluid, tear free gaming experience at highest performance. The AMD FreeSync Premium features a refresh rate of minimum 120Hz, decreasing blur and sharpening the picture for a more life-like experience. The LFC feature eliminates the risk of stutter in case the frame rate drops below the refresh rate.

WIDE FHD (WFHD) RESOLUTION

With 2560 x 1080 resolution, Wide Full HD (WFHD) offers superior picture quality and crisp imagery that reveals every detail. The widescreen 21:9 aspect ratio is perfect for watching movies in an expansive format or immersing yourself in the latest game, plus it offers more space when it's time to work.

LOW BLUE LIGHT

AOC Lowblue Light protects you from harmful blue light which, during long sessions, has been shown to cause eye strain, headaches, and sleeping disorders. Our Lowblue Light feature reduces the harmful wavelengths emitted without sacrificing color composition, setting the experience free from the worry of eye damage.
