

**IPS WIDE VIEW** 

The sister monitor of the AG324UXP sports the same stunning 4K UHD Resolution with a 144Hz refresh rate and next gen console compatibility. On top of that, it also boasts HDR600 and an even higher colour experience.

- UHD (4K) Resolution
- HDMI 2.1
- 1ms Response time GTG -Grey-to-Grey
- Superb color experience
- IPS Panel
- Light FX

# **UHD (4K) RESOLUTION**

With a 4K UHD resolution of 3840 x 2160 pixels – four times the resolution of a Full HD display – the monitor boasts a pixel density that delivers brilliantly sharp images with the finest details.

**4K UHD** 3840 x 2160

AOC GAMING AG274UXP

# **IMS RESPONSE TIME GTG - GREY-TO-GREY**

GtG stands for Grey-To-Grey and represents how long it takes for one pixel to change between one gray level to the next. In gaming, every millisecond counts and can be the differentiator between hitting or missing a shot. Fast response time also eliminates ghosting and motion blur.

## **IPS PANEL**

IPS panel ensures an excellent viewing experience with lifelike yet brilliant and accurate colors. Colors look consistent no matter from which angle you look at the display.

#### **HDMI 2.1**

The latest standard in HDMI technology further boosts higher refresh rates and resolution. This not only opens new doors for watching content, but also for gamers: HDMI 2.1 enables next generation consoles to reach their maximum performance.

# SUPERB COLOR **EXPERIENCE**

Dive into infinite different video games realms with graphics looking more lifelike than ever before. Our AOC monitors with a superb color experience come with over 1 billion shades and an extremely high DCI -P3. Gamers can also easily customize the color saturation to their preference.

### LIGHT FX

Maximum immersion: our AOC monitors come with special lighting at the back of the device that illuminates your gaming setup in various colors. Choose whatever color you like, sync it up with your other AOC devices and test the different glowing patterns.
