16T3EA

AOC

Productivity at your fingertips with the portable USB-C display 16T3E

The 16T3E expands your working and gaming space in an instant. The slim and super light 15.6" IPS display boasts vivid colors. Connect to a laptop or smartphone via USB-C within seconds and is easily set up.

| 15,6" 39.5 cm | FHD FULL HD | 60Hz | PORTABLE | USB C | FLICKER FREE |

Features

Auto-Pivot
Change the orientation of the monitor to automatically align screen content (included AOC i-Menu software needed to activate).

Productivity anywhere you go
More screen real-estate significantly increases productivity. With your monitor connected to your laptop you can be efficient even outside your home or office – when travelling or, visiting customers.

Usb-c connection with laptop or smartphone
Easy connections anywhere you go. With the USB-C ports on two sides of the 16T2, connect a laptop, smartphone or computer in an instant with a single cable. USB-C carries network, data, video signals and power simultaneously with a single cable. No extra clutter. If connected via HDMI, you will need to plug the USB cable to your device to enjoy touch function.

USB-C
One cable is all you need. The USB-C technology carries both the power and the display signal to the screen in one cable. It not only looks ultra-clean and sleek but also greatly improves portability of the monitor.

Business outside home and office
Your office is where you are and moves with you, every day and everywhere. Working with a laptop provides you with mobility but setting up an external monitor is one of the best hacks for improving your productivity. AOC portable solutions help you to connect your laptop through different types of connector systems, so efficiency and flexibility are with you wherever you go. According to the monitor you chose, in fact, you will benefit from the USB-C if you have an AOC I1601FWUX, or the USB 3.0 if you are using the AOC I1659FWUX.

Home use – Multi setup
Portable monitors are also worthy allies in multi-monitor set-ups at home. They are a space-efficient and powerful solution that can be used in your home setup for complete and extensive visualization, but also a solution that can fit everywhere in your house for any need. Thanks to a single USB cable that transfers data to the screen and acts as an energy-efficient power source, you can enhance your work efficiency while maintaining a clear and sleek desk for a stylish solution for any workplace or home interior.
